explore the cultures”*

# DANAE TELLERS

## Motivation:

Danae is hoping to travel at a low cost, but at the most experience. She would like to be able to share her experience with her friends and family in Amsterdam while she travelling. She likes to keep all the information at one place. She also hopes that there would be some sort of insight information from the local and other bag packers that is not about the touristy spot, but more closer to art and nature.

## Goal:

- Upload pictures and share with her friends and family
- Get insight information for the local
- Direction
- Price recommendation

## Frustration:

- Pictures that unlike the actual place or haven't been up to date
- Searching for a free Wifi while traveling
